

The low level access solution that offers flexibility when working at 3m and below.

**TURNER  
ACCESS**

# DELTADECK

The Deltadeck 250 is the innovative low level access solution from Turner Access Ltd. It is the ideal solution for those needing flexibility when working at lower heights.

## EFFORTLESS ACCESS

- One person operation
- One complete unit (no pins, clips or components to lose, damage or forget about when assembling)
- Simple to assemble and dismantle
- Easy transportation and storage (can even be transported by car)
- Compact dimensions allow the Deltadeck to be moved from room to room while still assembled
- Can accommodate two people

## SAFE ACCESS

- Multiple platform heights (450mm, 530mm, 600mm, 730mm & 870mm)
- Fully guardrailed to ensure user safety at all times, at all heights
- Maximum working height of 3.0m
- Safe working load of 200kg
- Access and egress from either end of the platform
