ACCESS**

INNOVATION IN ACCESS

Omegadeck 250

OMEGADECK 250 is the brand new mobile aluminium bridging system from Turner Access - the very first system to provide you with effortless up-and-over access.

EFFORTLESS ACCESS

- Limited number of components provide quick assembly for access up and over ground level obstacles
- No need to move desks, machinery, workstations etc allowing you to cause minimal disruption and get the job done quicker
- 7 rung frames for choice of platform height (up to 1.8m)
- Span adjusts to suit your particular requirements
- Compact, lightweight components for easy handling and storage

SAFE ACCESS

- Serrated non slip rungs for sole access to the working platform
- Weather proof, anti-skid decking and adjustable guardrail system provide a safe working area
- Incorporates the **SAFEGUARD**TM Safeguard fall protection system
- Platform safely accommodates up to 2 people plus tools
